7 Days to Die Cheat Codes

Command	Shortcut Key	Effect
creativemenu	*cm*	Enables the Creative Menu, which you can open by pressing the **U** key. While in the menu, you can gain new items by selecting them and moving them to your inventory. You can also fly by pressing the **H** key, go up with the **Space** key, go down with the **C** key, and fly faster by holding the **Shift** key.
debugmenu [on/off]	*dm*	Enables the Debug Menu, which you can open by pressing the **ESC** key. Enabling Debug Menu also enables the Creative Menu. The Debug Menu also enables a number of keyboard commands, including: • **F3**: Display world/player stats on the HUD. • **F5**: Toggle 1st person/3rd person. • **F6**: Open the Entity Menu with a list of spawnable entities. • **F8**: Use this key twice to show additional player information. • **Q**: God Mode. Player takes no damage, can fly, and can clip through walls. • **SHIFT** + **Q**: Teleport the player to the cursor. • **P**: Detach the camera.
